WYLE LABS COMMUNITY MEETING

HOSTED BY THE CALIFORNIA DEPARTMENT OF TOXIC SUBSTANCES CONTROL

**June 14, 2004
7:00pm**

**Norco Intermediate School
2711 Temescal Avenue
Norco, CA 92860**

The California Department of Toxic Substances Control invites you to a public meeting to update you on the Wyle Labs environmental investigation and cleanup. This meeting is scheduled for June 14, 2004 at Norco Intermediate School. Additionally, we will discuss sampling results from the Wyle property boundary and Golden West Lane. You will have the opportunity to ask questions and receive answers about our investigation.

Wyle is a testing facility that has serviced the defense, aerospace and manufacturing industries since 1957. It consists of 429 acres of land located at 1841 Hillside Ave, Norco. Wyle's operation resulted in soil and groundwater contamination. DTSC signed a Consent Order with Wyle and Arrow Electronics, Inc. in October 2003 to address surface and subsurface contamination at the Site. The investigation and cleanup of the site is underway.
